-

EXPERIENCE

GodBolt Operation Specialist

Markham Ontario YYY5

June 2024 – Present

- **Shipping and Order Fulfillment:** Managed shipping operations, including order picking, packing, labeling, and preparing shipments to meet tight schedules.
- **Logistics Coordination:** Ensured timely and accurate order processing, tracking, and delivery while maintaining compliance with company standards.
- **Inventory Management:** Oversaw stock levels, conducted audits, and ensured accurate inventory records to support smooth operations.

- **Process Improvement:** Identified and implemented strategies to optimize workflows, enhance productivity, and reduce errors in logistics processes.
- **Team Collaboration:** Worked closely with warehouse teams to prioritize tasks, manage workloads, and achieve daily operational goals.

Graphic Designer

Catalyst Channel Marketing | Oakville | Ontario

June 2023 – May 2024

- **Custom Logo Design:** Crafted visually appealing logos tailored for apparel, ensuring brand relevance and print suitability.
- **Print Material Graphics:** Designed compelling graphics for T-shirts, promotional items, and event collateral, maintaining a cohesive brand image.
- **Production Coordination:** Collaborated with print production teams to ensure precise execution of designs on various materials.
- **Client Collaboration:** Partnered with clients to understand branding objectives, translating their vision into marketable logo designs.
- **Trend Integration:** Stayed abreast of industry trends, incorporating contemporary elements for a competitive edge.

Frontend Developer/Graphic Designer

Software Development Center, Punjab, India

Oct 2021 – Aug 2022

- **Front-End Development:** Utilized React to create dynamic and responsive front-end components for educational web applications using React JS.
- **ERP Network and Functionality:** Implemented ERP Next and Frappe Framework to develop an ERP network for educational organization.
- **Added key features** such as registration, student fee collections, and teachers' payroll.
- **Collaboration and Integration:** Collaborated with cross-functional teams to seamlessly integrate front-end components with the ERP network.
- **Graphic Design:** Served as a graphic designer, creating vector graphics to enhance application visuals.

PROJECTS

Advanced Legal Document Analysis Tool

Team Lead & Lead Developer

October 2024 – Dec 2024

- Designed and developed an AI-powered platform for analyzing, summarizing, and creating legal document templates.
- Utilized Next.js, Python, MongoDB, and OpenAI for full-stack implementation.
- Key features include automated document summarization, PDF-to-DOCX conversion, and customizable templates.
- Led a cross-functional team, managed milestones, and optimized the platform for seamless user experience.

ERP-GURU (Educational Institute Web Application)

Oct 2021 – Aug 2022

- A web application that collects and organizes all the colleges and universities under one platform for an organization to monitor and manage their educational institutions.
- Handled the front end and database development using HTML, CSS, JavaScript, PHP, and MySQL.
- Designed the user interface and graphics using Photoshop and Illustrator.

React JS Clones (A JavaScript Library)

July 2020 – Sept 2020

- A series of web applications that clone the functionality and design of popular websites and apps such as Netflix, Snapchat, Amazon, and Signal using React JS.
- Used React JS to create the front-end components and state management using hooks, context, and redux.
- Used Firebase to handle backend services such as authentication, database, storage, and hosting.
- Implemented features such as user login, video streaming, chat messaging, product listing, and payment processing.
